

Premium's New & Improved Balloon Saddle®

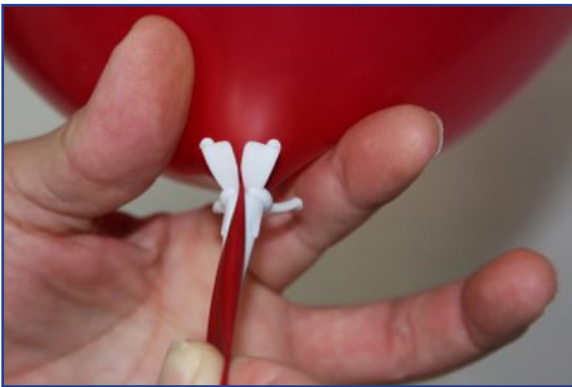

Improved Support for Foils and Latex Balloons

The New Balloon Saddle® is designed to hold 4", 9" and 14" foils as well as 5" thru 11" latex, which provides better support than other one-piece balloon sticks. The New design holds balloons upright and improves their support. The special design does not require the balloon to be knotted before it is attached to the stick.

The Balloon Saddle® Features & Instructions:

- One Piece design requires no glue to attach the cup and stick which means fast assembly.
- Child-Safe!
- Keeps balloons upright and provides improved support.
- No tying of balloon required before attaching to cup.
- Save time and finger fatigue with simple, fast assembly.
- 12" in length and available in white color.
- 100 pieces per bag.

Pull the neck of the balloon into one of the slots on the Saddle.

Pull the neck complete around the saddle.

Pull the neck back into the original slot.

Pull the balance of the neck across the Saddle and into the opposing slot to secure.
